

12 November 1981

MEMORANDUM FOR:

25X1

FROM:

SUBJECT: ICS Weekly Report (9-13 November 1981)

Completed:

Dr. Victor Reis from George Keyworth's Office of Science and Technology Policy has accepted an invitation to be an observer on the IR&DC. (C)

Ongoing:

Director, DIA, has given endorsement to the IR&DC initiative for continuing and expanding the Council's Electro-Optical Coordinating Group. Williams states: "This initiative will foster a more effective overall DoD intelligence collection management program and will benefit the entire Intelligence Community by providing a strong focal point for electro-optical collection and research and development."
